SUMMARY

Data Analyst with an MSc in Data & Computational Science from UCD and experience in SQL, Python, Power BI, and stakeholder reporting. Proven ability to translate complex datasets into actionable business insights through data storytelling, ad hoc analysis, and dashboard reporting across healthcare, insurance, and operations.

EDUCATION

University College Dublin <i>MSc in Data & Computational Science – Grade: 2:1</i>	Dublin, Ireland 2024 – 2025
Vidyalankar Institute of Technology <i>Bachelor of Engineering in Electronics – Grade: 1:1</i>	Mumbai, India 2019 – 2023

TECHNICAL SKILLS

Languages & Querying: SQL (MySQL, PostgreSQL), Python, R
BI & Visualisation: Power BI, Tableau, Excel (Pivot Tables, VLOOKUP), Google Sheets, SAS
Analytics: Data Storytelling, Ad Hoc Analysis, KPI Reporting, EDA, Statistical Analysis, A/B Testing, ETL, Data Governance
Tools & Platforms: Git, GitHub, Microsoft Azure, Jira, SharePoint, FastAPI, Terraform, CRM Reporting

EXPERIENCE

Operations Customer Expert <i>Teleperformance</i>	May 2026 – Present Dublin, Ireland
- Tracked and analysed 100+ weekly customer cases using structured records and CRM data to support operational reporting, issue resolution monitoring, and SLA compliance. - Built and maintained escalation logs and compliance documentation, improving handover accuracy and reducing reporting gaps across workflows.	
Sales & Business Operations Intern (Data & Analytics Focus) <i>Heart Rhythm International</i>	Oct 2025 – Mar 2026 Dublin, Ireland
- Queried and analysed healthcare and sales datasets using SQL and Python, delivering weekly KPI reports on pipeline performance, customer activity, and revenue trends for senior stakeholders. - Designed and maintained Power BI and Google Sheets dashboards tracking 5+ business metrics; supported CRM reporting and ad hoc analysis requests from cross-functional teams.	
Associate – Data Protection <i>SBI Life Insurance Pvt. Ltd.</i>	Jul 2023 – Jul 2024 Mumbai, India
- Investigated 50+ daily DLP incidents by analysing logs and anomaly patterns, reducing review turnaround time by 15% through workflow optimisation and structured incident tracking. - Prepared audit-ready reports and compliance trackers; trained 18+ employees on data protection practices, improving team-wide policy adherence.	
Data Analyst Intern <i>Autobot Dynamics</i>	Jul 2021 – Oct 2021 Mumbai, India
Extracted and cleaned 10K+ records using SQL and Excel; performed EDA and built stakeholder reports that surfaced actionable trends and performance anomalies.
